PROJECTS

CNN-Powered Facial Emotion Analysis

June 2024

- Developed a CNN-based model to detect human emotions from facial images.
- Classified emotions: Happy, Sad, Angry, Surprise, Fear, Neutral, and Disgust.
- Applied image preprocessing, normalization, and data augmentation techniques.
- Extracted features using convolutional layers to improve model accuracy.

Image + Text Classification

April 2025

- Built a multimodal system combining image (CNN) and text (NLP) features.
- Used tokenization and embeddings for text processing.
- Implemented feature fusion to improve classification performance.

Multi Cloud Cost Dashboard — MERN Stack

Jan 2026

- Developed a full-stack cloud cost monitoring dashboard using React.js, Node.js, Express.js, and MongoDB.
- Built RESTful APIs for secure data handling and real-time cloud expense visualization.
- Implemented JWT-based authentication and protected routes for user security.
- Optimized database queries and improved frontend responsiveness for better user experience.

TECHNICAL SKILLS

Languages: Python, Java, C++, HTML, JavaScript, SQL

Developer Tools: VS Code, Android Studio, Terraform, Packer

Technologies/Frameworks: Linux, Git, GitHub, ReactJS, NodeJS, MongoDB

Cloud Services: AWS (EC2, S3, RDS, VPC, Lambda, IAM, CloudWatch).

EXTRACURRICULAR

• Chief Convenor and General Secretary, GenAI Community VIT BHOAPL UNIVERSITY

- Led planning and execution of AI/GenAI-focused events, workshops, and sessions.
- Coordinated cross-functional teams and managed end-to-end event operations.
- Increased student engagement through technical initiatives and community activities.

• Event Team Core Member, GeeksforGeeks Student Chapter VIT BHOPAL UNIVERSITY

- Coordinated and executed technical events ensuring smooth operations.
- Managed logistics, registrations, and team collaboration.
